Basick Records are extremely proud to announce the release of '**The Carrion Sky**', the awesome debut album from UK Metal's brightest new hope; **MY MINDS WEAPON**

Regardless of their relatively short lifespan, the band have already ripped up stages with the likes of **Caliban, As I Lay Dying, Textures, Alexisonfire, Misery Signals** and **Bleeding Through**, as well as venturing out on full UK tours with buddies **Flood Of Red, Enter Shikari, Blueprint To A Downfall**, and **cryforsilence**; the latter leading to a slot on the prestigious **Taste Of Chaos** tour...

Mixed and mastered at the soon to be legendary Wellerhill studios by Dan Weller and Justin Hill (**SIKTH/MINUTES**), the album features ten blistering tracks of progressive and technical metal, as well as guest vocals by Justin Hill

With a raft of tours and appearances planned for summer 2008, **MY MINDS WEAPON** are set to make their indelible mark on the international metal scene...
