- 4: **Today's Fashions Are Tomorrow's Tragedies**
- 5: **Red Dress Programme**

"Nice... This is really good. It's good because you never really know what riff is coming next which makes the music more interesting." – **Mike Martin | WILL HAVEN**

Progressive Hardcore band **THE COMANCHE CIPHER** formed on the outskirts of London just under two years ago. And despite their musical career being in its infancy, their hardworking attitude and tightly honed but unique and furious sound has made them a much talked about band.

Killer hooks and straight faced brutality, coupled with a constant dedication for striving beyond the 'two a penny' sound of other hardcore bands saturating the scene right now have spurred the band on to a more distinct and mature sound.

The band consisting of Woody (Vocals), Max (Guitars), Fab (Guitars), Graham (Bass), Ben (Drums) will be continuing to set stages alight with their intensely savage live show, which has already secured them key support slots with the likes of **Stretch Armstrong, With Honor, Enter Shikari** and **Send More Paramedics** to name but a few...
